

Find your ring size...

To determine your ring size:

Take a ring that fits you comfortably and position it so that the *outer* edge of a black circle fits flush against the inside edge of your ring.

For the greatest accuracy, use a ring with a similar width band and style to the one you want to purchase.

If you're unsure of your ring size we recommend you visit your local jewellers and ask them to measure your size.

IMPORTANT - This ring size guide must be printed on your printer, do not just place a ring on the screen because you will not get the correct size.

Before you print this document...

To ensure this document prints at the correct size, please go to File > Print, and then set "Page Scaling" to "None".
